9.1.2017

**Sub. : All India one day seminar on "Bagasse Drying – A Success Story" on 3rd February 2017, at Bravura Gold Resort, Partapur, Meerut, U.P.**

Dear Member,

1. We are pleased to inform you that The Sugar Technologists' Association of India is holding an All India one day seminar on "**Bagasse Drying – A Success Story**" on 3rd of February 2017 at Bravura Gold Resort, NH-58, Delhi-Roorkee Bypass, Partapur, Meerut.
2. Sugarcane is one of the most promising agricultural sources of biomass energy in the world. After milling of the cane, mill wet bagasse contains about 48-50% moisture content which is the main determinant of its calorific value. Efforts have been made to reduce this moisture content by drying bagasse using waste heat from the boiler flue gas thus leading to substantial savings of bagasse for outright sale to other industries or extended period of co-generation. This also has several other multiple advantages such as flue gas cleaning, simplified fly ash management etc.
3. With the above perspective in mind and to draw attention of the experts and stakeholders on the subject, **The Sugar Technologists Association of India in association with Enviropol Engineers Pvt. Ltd., Noida**, is organizing the above seminar to highlight the success story of field installation of a Bagasse Drier.
4. The seminar is divided into two sessions. The forenoon session will include presentations by Enviropol Engineers and a sugar factory on Bagasse Drying and followed by question & answer session. The afternoon session will include visit to **Daurala Sugar Works**, Daurala, Meerut which is 27 kms from the seminar venue to view onsite working of the Bagasse Drier. The programme is proposed as under:

**Date :** 3rd February 2017

**Venue:** Bravura Gold Resort, NH-58, Delhi-Roorkee Bypass, Partapur, Meerut

**Time :** 0930 – 1300 hrs., Seminar

1300-1400 hrs., Lunch &

1400-1700 hrs., visit to Daurala Sugar Works

5. The seminar will be of great relevance to the **CEO's, HOD's, Mill engineers/technologists, Cogen plant** officials and other professionals of the Sugar & Allied Industry. I am writing to invite you to participate in this seminar and also nominate other professionals from your organization to benefit from this important seminar. Confirmations can be e-mailed through attached registration form.

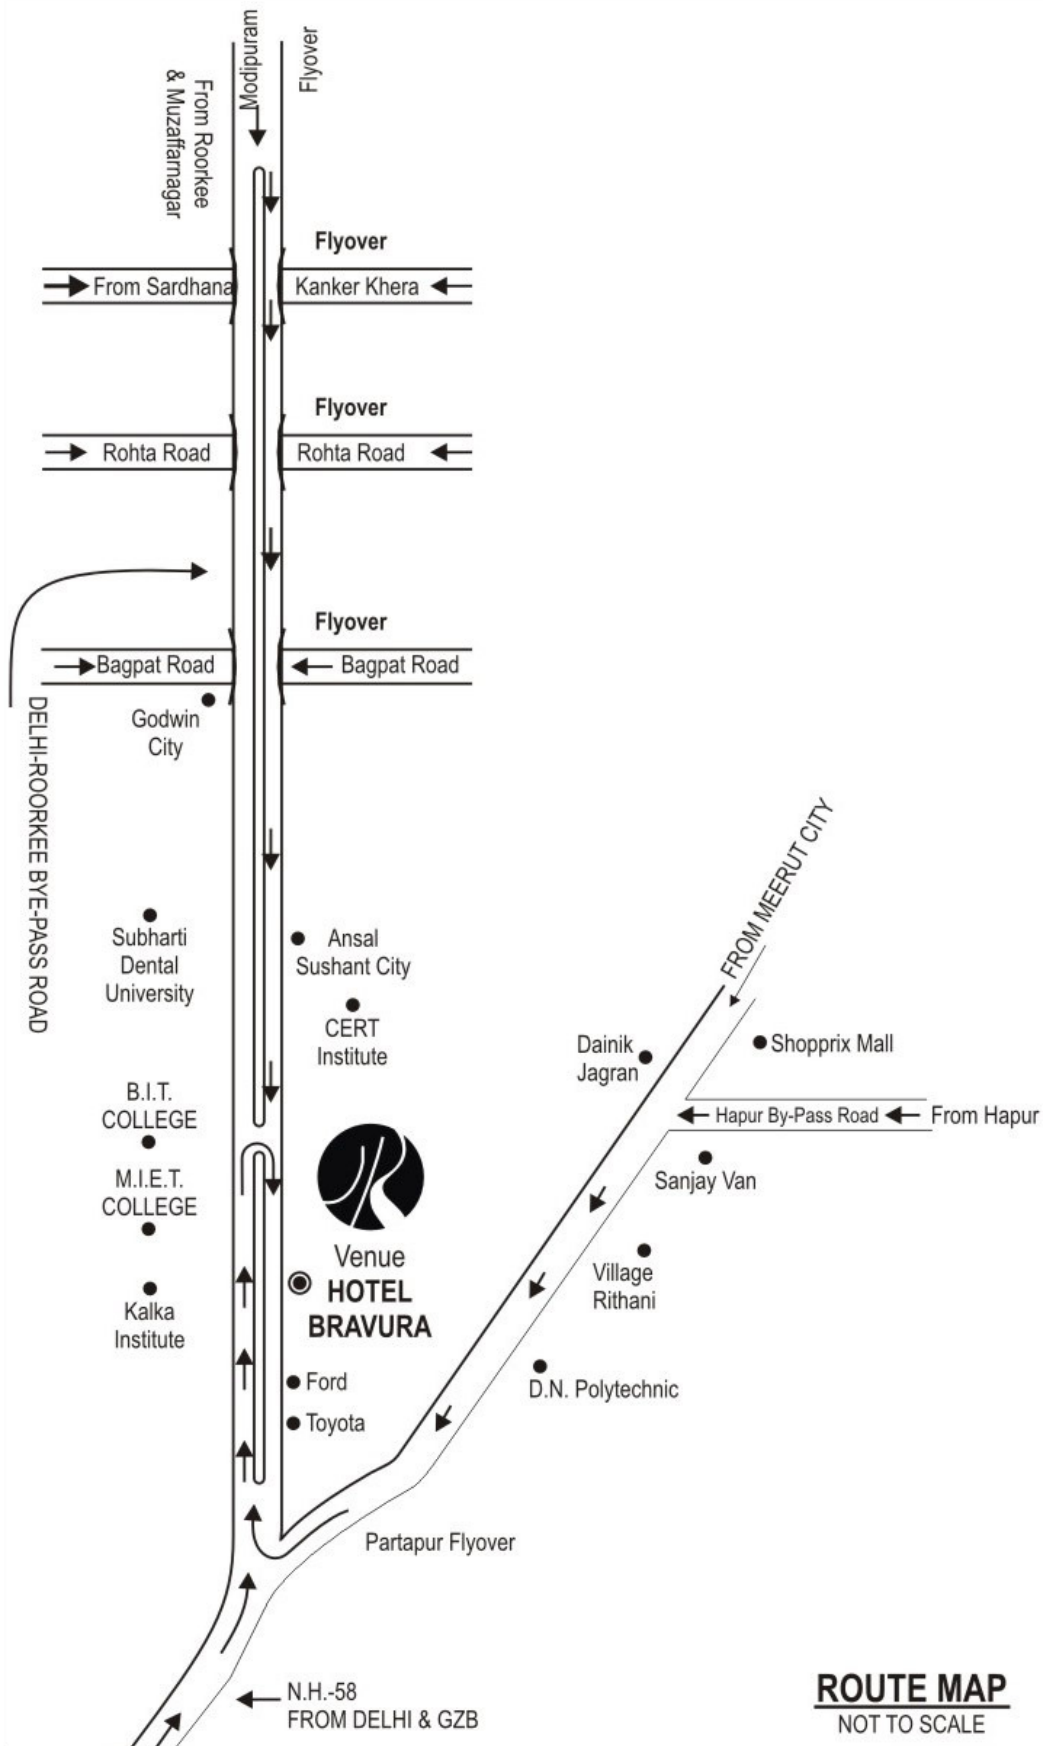

Thanking you,

Yours truly,

SANJAY AWASTHI  
PRESIDENT
